## Associate Product Manager / Technical Product Builder

MBA Finance and Marketing candidate with hands-on product ownership across AI, fintech, trading workflows, payments, onboarding, QA, and user-facing web products. Currently working on Finverse through a product/client engagement, translating broad founder goals into structured requirements, user journeys, feature logic, acceptance criteria, bug lists, QA checks, and release-ready workflows. Strong fit for APM, Technical Product Associate, Product Owner, Founder Office Product, and Product Analyst roles requiring product sense, technical fluency, stakeholder communication, and fast execution.

## Core Product Skills

- Product Management: Requirement gathering, PRDs, user stories, acceptance criteria, feature prioritization, product roadmapping, stakeholder communication, sprint planning basics, agile/scrum fundamentals, launch planning
- Technical Product: Frontend/backend flow understanding, REST APIs, auth/OAuth, payment gateways, rate limiting, AI guardrails, admin workflows, logs, error tracing, QA validation, release checks
- AI + Fintech: AI assistant workflows, Azure OpenAI, multilingual chat UX, tool-grounded responses, finance

workflows, stock screeners, watchlists, strategy builder, backtesting, paper trading, trading journal, portfolio/user insight flows

- Analytics + Business: Product metrics, activation/retention/conversion, funnel thinking, Power BI, MS Excel, data visualization, financial analysis, market research, operations management
- Tools + Technical Literacy: Next.js, React, TypeScript, JavaScript, Tailwind CSS, Go, MySQL, REST APIs, WebSocket APIs, Razorpay, Docker, Azure Blob Storage, Vercel, Firebase, Supabase, Git, GitHub, Figma, Canva

## Experience

### **Product Manager | Finverse Client/Product Engagement via Bermer Software Limited | Feb 2026 - Present**

- Own product planning and execution for Finverse, an AI-powered stock market super app covering Zeno AI, stock screeners, strategy builder, backtesting, paper trading, courses, admin panel, subscription/course checkout, and market-data workflows.
- Translate founder requirements into implementation-ready product specs, user journeys, feature logic, edge cases, bug lists, expected results, QA checks, and release priorities across frontend, backend, AI, payments, and admin modules.
- Shape Zeno AI workflows for multilingual finance queries, chat history, guest limits, IPO/GMP/market-data enrichment, rate limiting, tool-grounded AI responses, and guardrails for safer fintech conversations.
- Define and validate payment/course access logic including Razorpay checkout, order validation, server-side signature verification, coupons, feature flags, webhook hardening, and content access controls.
- Prioritize and test fintech workflows including

screeners, watchlists, paper trading journal, PnL handling, candles, quotes, strategy rules, and backtest journeys for retail trading use cases.

- Collaborate closely with AI-assisted engineering workflows across Next.js, Go, MySQL, APIs, auth, and deployment by tracing errors, reviewing expected behavior, and validating fixes against acceptance criteria.
- Improve production readiness through admin tooling, Docker, Azure Blob Storage uploads, CORS origin lockdown, health checks, environment configuration, and deployment wiring.

## **Product Intern | Bermer Software Limited / Niyantha Transits Private Limited | Jan 2026 - Present**

- Supported product and business presentation work for Niyantha, a hardware/IoT product initiative under Bermer Software Limited.
- Converted early product ideas into clearer presentation narratives, roadmap direction, and stakeholder-ready material.
- Contributed to product positioning and business communication before transitioning into the Finverse product/client engagement.

## **Product Manager (Technical) | KiddoFin | Bengaluru | Dec 2025 - Jan 2026**

- Represented KiddoFin at Google as the primary product presenter, communicating the product vision, user value, and product narrative to external stakeholders.
- Led website design and development, translating product goals into user-facing web experiences and stakeholder-ready demos.
- Designed automated email onboarding flows to improve customer activation and first-time user experience.

- Created product roadmaps, feature plans, and product pitches for early-stage product direction.

## **Human Resource Management Intern | Peunier | Remote, India | Dec 2024 - Jan 2025**

- Developed job descriptions and posted openings across hiring platforms, improving candidate visibility by 30%.
- Screened and interviewed candidates, helping hire 13+ qualified individuals within one month.
- Streamlined recruitment workflows using an ATS, reducing hiring time by 25%.
- Prepared recruitment metric reports to support future hiring strategy and staffing decisions.

## **Product Case Studies / Projects**

### **Finverse | AI-powered Stock Market Super App | 2026**

- Designed product flows across Zeno AI, screeners, strategy/backtesting, paper trading, courses, checkout, admin tooling, and market-data workflows.
- Built the product story around one user loop: learn, ask, analyze, simulate, track, and pay only through verified access states.
- Case study: <https://fareeth.vercel.app/work/finverse>

### **SmartSlot | Mobile-first Dental Appointment PWA | 2025**

- Built a mobile-first appointment product for dental students and interns to create daily slots, share WhatsApp booking links, manage leave days, and track case progress.
- Designed a low-friction patient journey without requiring patient login, using React, Tailwind CSS, Supabase, and Vercel.

## **RoomSpace | Roommate Key Tracker | 2025**

- Built a mobile/web coordination tool to help roommates track who holds the room key with accountability, real-time updates, and offline synchronization.
- Focused the product around a simple shared source of truth using React, Tailwind CSS, Node.js, and Firebase.

## **Education**

- Krupanidhi College of Management | MBA in Finance and Marketing | Oct 2024 - Present | CGPA: 8.38/10
- University of Madras, The New College | Bachelor of Economics | Gold Medalist | Oct 2021 - Apr 2024 | CGPA: 7.16/10

## **Certifications**

- Market Research for Product Management - MTF Institute
- UI/UX Design and Product Management with Figma - Hudson Dynamic Lab
- Microsoft Excel Beginner to Advanced - Udemy
- Power BI: Data import, transformation, DAX, dashboards, publishing, and insight sharing
- Agile, Scrum, and PMP fundamentals

## **Achievements**

- Gold Medalist in Bachelor of Economics, University of Madras, The New College.
- Represented KiddoFin at Google as the primary product presenter for an external stakeholder presentation.
- Won first prize for presenting the brand story of Apple among MBA batch 2024-2026 students.
- Won first prize for presenting Hybrid 2.0, a sustainable automobile concept.
- Led a team to the finale of the SDG Championship 2022.
