- Technical: Next.js, React, TypeScript, Go, MySQL, REST and WebSocket APIs, OAuth, Razorpay, Docker, Git, Figma
- AI + Fintech: Azure OpenAI, multilingual chat UX, AI guardrails, screeners, backtesting, paper trading, analytics

EXPERIENCE

Product Manager | Finverse client engagement via Bermer Software Limited | Feb 2026 - Present

- Own product planning for an AI-powered stock-market platform spanning Zeno AI, screeners, strategy builder, backtesting, paper trading, courses, checkout, and admin tools.
- Translate founder requirements into specs, user journeys, edge cases, acceptance criteria, QA checks, and release priorities across frontend, backend, AI, payments, and admin modules.
- Shape multilingual finance-assistant workflows with market-data enrichment, guest limits, rate limiting, tool-grounded responses, and safety guardrails.
- Define and validate Razorpay checkout and course-access logic, including signature verification, coupons, webhooks, feature flags, and verified access states.

Product Intern | Bermer Software Limited / Niyantha Transits Private Limited | Jan 2026 - Present

- Converted early hardware/IoT product ideas into stakeholder-ready narratives, product positioning, and roadmap direction.

Product Manager (Technical) | KiddoFin | Bengaluru | Dec 2025 - Jan 2026

- Represented KiddoFin at Google as the primary product presenter, communicating product vision, user value, and stakeholder narrative.
- Led website delivery, automated email onboarding, feature plans, and product pitches for an early-stage product.
