ASSOCIATE PRODUCT MANAGER | AI PRODUCTS + DEVELOPER TOOLS

Product Manager Trainee at Kumaran Systems and MBA graduate with experience in AI product discovery, competitive evaluation, and fintech product development. Combines user journeys, feature prioritization, technical demonstrations, and hands-on product delivery with economics and student leadership.

EDUCATION

Krupanidhi College of Management | MBA, Finance and Marketing | 2024 - 2026 | CGPA: 8.38/10 | Finance Gold Medalist; Best Outgoing Student

The New College, University of Madras | B.A. Economics | 2021 - 2024 | Gold Medalist

EXPERIENCE

Product Manager Trainee | Kumaran Systems | Sep 2026 - Present

- Contributed to enterprise AI product discovery through target-market evaluation, SWOT analysis, user journeys, and competitive positioning.
- Evaluated AI memory and personalization trade-offs across context continuity, token cost, and performance; proposed context-import onboarding to address cold-start friction.
- Delivered GitHub Copilot workflow demonstrations and recorded walkthroughs for the team; recommended feature priorities and phased implementation for an internal AI developer tool.
- Contributed to agentic AI workflow and enterprise integration discussions; advocated platform-level positioning to connect individual products into a coherent ecosystem.

Product Manager | Finverse via Bermer Software Limited | Feb 2026 - Aug 2026

- Translated founder goals into user requirements, journeys, acceptance criteria, release priorities, and QA checks across AI chat, market analysis, trading simulation, courses, and checkout.
- Shaped multilingual, tool-grounded AI assistant workflows and validated payment-to-course-access logic, including signature verification and webhook handling.

Product Manager (Technical) | KiddoFin | Bengaluru | Dec 2025 - Jan 2026

- Presented KiddoFin's product vision and user value at Google; led website delivery, automated email onboarding, feature plans, and stakeholder pitches.

PRODUCT PROJECTS

Placement Desk | Independent Product | 2026

- Built a local-first workspace around the candidate journey: profiles, role discovery, evidence-based resume tailoring, application tracking, and interview preparation; added DOCX/PDF export and JSON backup.

SmartSlot | Mobile-first Dental Appointment PWA | 2025

- Built booking, WhatsApp slot sharing, leave controls, and case tracking around dental students' workflows, removing patient signup from the booking journey.

LEADERSHIP ACTIVITIES

The New College: Students' Union Leader and IRA 2K24 co-founder; coordinated 400 student organizers for 2,500+ visitors in one day, attracted sponsorship funding, and organized 20+ events during a one-year term.

MBA: Organized Orphic 2025 inter-college fest and emceed most college events; Best Presenter, Krupacon International Conference 2025; Emerging Entrepreneur award.

SDG Championship 2022: Won at college level and led an environmental-focus team onward to state level.

PRODUCT SKILLS

Product: market research, competitive evaluation, prioritization, user journeys, requirements, stakeholder communication

Technical, analysis and design: React, Next.js, TypeScript, Go, REST APIs, Azure OpenAI, GitHub Copilot, Figma, Excel, Power BI
